GENERAL ASSEMBLY OF VIRGINIA.

MONDAY, March 3, 1879. SENATE.

Lieutenant-Governor WALKER presiding Mr. Spitter presented a resolution instructing the Clerk to prepare and present in printed form to the Senate on the first day of its next session a system of rules for its government which in his judgment will best promote the efficiency of committees, the dispatch of business, and the proper deliberation of the Senate. Agreed to. EXTENSION OF THE SESSION.

On motion of Mr. Goode the resolution which be presented on Saturday extending the session four days from the 3d of March was taken up-Mr. Tyler suggested that it would be

best to strike out four and insert six. Mr. Paul opposed the resolution. He said he had heard it intimated that if the General Assembly fails to extend the session then the Governor will undertake to shoulder the responsibility of calling an extra session and imposing upon the State an additional expense. He then went on to make a speech in opposition to the resolution, claiming that it was only to force through the House a measure which the minority had shown ought not to pass. Mr. Koiner demanded the pending ques-

The library has grown to considerable importance, which, the committee say, is due largely to the efforts of the present Clerk in procuring and preserving complete sets of the Senate, and nearly complete sets of the Journal of the House of Delegates, and many other valuable books and manuscripts. The committee conclude with a handsome compliment to Mr. Davis, the Clerk.

DR. RUFFNER AND THE EDUCATIONAL JOURNAL. The Senate next took up the report of the Committee on Education on the preamble and resolutions instructing it to inquire and report how \$839,274.63 was expended for the scholastic year ending 31st of July,

The report was discussed. Mr. HURT of Pittsylvania made again the statements made the other day about Dr. Ruffner, especially that Dr. Ruffner required his superintendents to insist that publicschool teachers should be subscribers to the Educational Journal, or should not hold

positions as teachers. Mr. SMITH said if Dr. Ruffner had come into his district and made the statement that he made in Mr. Hurr's presence be would not have remained in his seat from the 4th of December until the 3d of March

without impeaching him. Mr. Hunr said he did not know that such prerequisite was not allowed until he saw it in the report. Mr. FULKERSON thought it would not be

to arrive at a conclusion of the subject, but if it could be done he would move to accord to Dr. Ruffner the privileges of this floor in order that he might make a statcment concerning the matter. We ought not to adjourn with these charges hanging over Dr. Ruffner. The CHAIR decided that the motion was

not m order. He did not know how the Senate could allow a stranger to appear before it and make a statement.

Mr. HURT of Pittsylvania moved that the chair be vacated in order that Dr. Ruffner might appear and make a statement concerning the charges.

Mr. PHLEGAR inquired whether the Senate could not resolve itself into committee of the whole and hear Dr. Ruffner. The CHAIR thought not.

The report of the committee was discussed at considerable length. Mr. HURT of Pittsylvania said be could not permit the report to be adopted without making the statement he had made.

Mr. Johnson asked whether or not the Educational Journal, which contains Dr. Ruffner's instructions to the school boards. had not lately contained an article charging a diversion of the school funds and the inability of the State to pay more than 3 per cent. interest on the debt.

Mr. Smith suggested that if such an article had appeared, and Dr. Ruffner bad written it, that he was responsible personally and not officially. Mr. FULKERSON stated that Dr. Ruffner

had not written it. Mr. Johnson said that was satisfactory. He had never seen the article referred to. A motion was made to strike out the last clause of the report declaring that the appropriation to the Educational Journal by the Board of Education is authorized by

It was undiscussed at length, and finally laid on the just to his constituency. Two highly-intelligent persons in his county had been denied a position in the public schools-Mr. and Mrs. Lacy-because they were not subscribers to the Educational Journal, and
